OBJECTIVE OF THE FOUNDATION

The foundation's objective is to contribute to the improvement of working conditions and environmental impact in global garment & footwear supply chains, by enabling buyers and suppliers to agree on prices that incorporate the investments needed for such improvements.

Fair Price's main activities are the development, promotion and roll-out of tools and trainings supporting factories and brands in realistic and equitable price negotiations. The Foundation's income is envisaged to consist of subsidies and grants, as well as compensation for the use of its tools and trainings.

The Foundation was founded on May 29th, 2026. No income has been received yet, pending ANBI-status. Current activities are all preparatory, mostly focused on the launch of the new Fair Price tool in the beginning of 2027.
